Kim wants to find out why frogs come in many colors. She has a plan.

Kim arashaka kumenya impamvu ibikeri bigira amabara menshi atandukanye. Afite gahunda.

Kim goes into a wetland to find frogs.

Kim agiye mu gishanga gushaka ibikeri.

But there are no frogs! “Where are all of the frogs?”

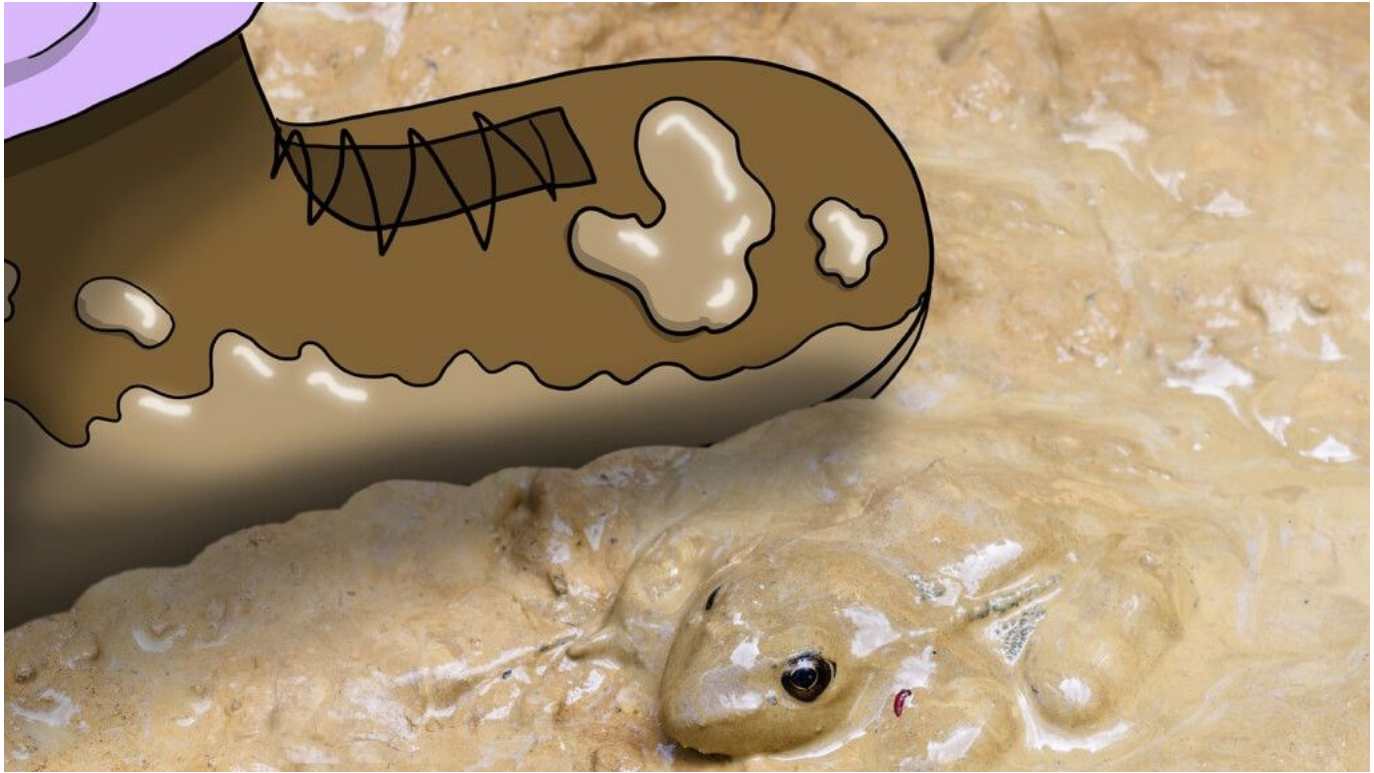

Ariko ntabikeri bihari? “Ese ibikeri byose birihe?”

Kim finds a frog. This frog hid on a tree. It looks like the tree.

Kim abonye igikeri. Iki gikeri kihishe ku igiti. Gisa nk'igiti.

This frog hid in the mud. It looks like the mud.

Iki gikeri kihishe mu cyondo. Gisa nk'icyondo.

This frog hid in the pond. It looks like the green stuff in the pond.

Iki gikeri kihishe mu kidendezi. Gisa nkibintu byicyatsi byo mu kidendezi.

This frog hid on the grass. It looks like the grass.

Iki gikeri cyihishe mubyatsi. Gisa nk'ibyatsi.

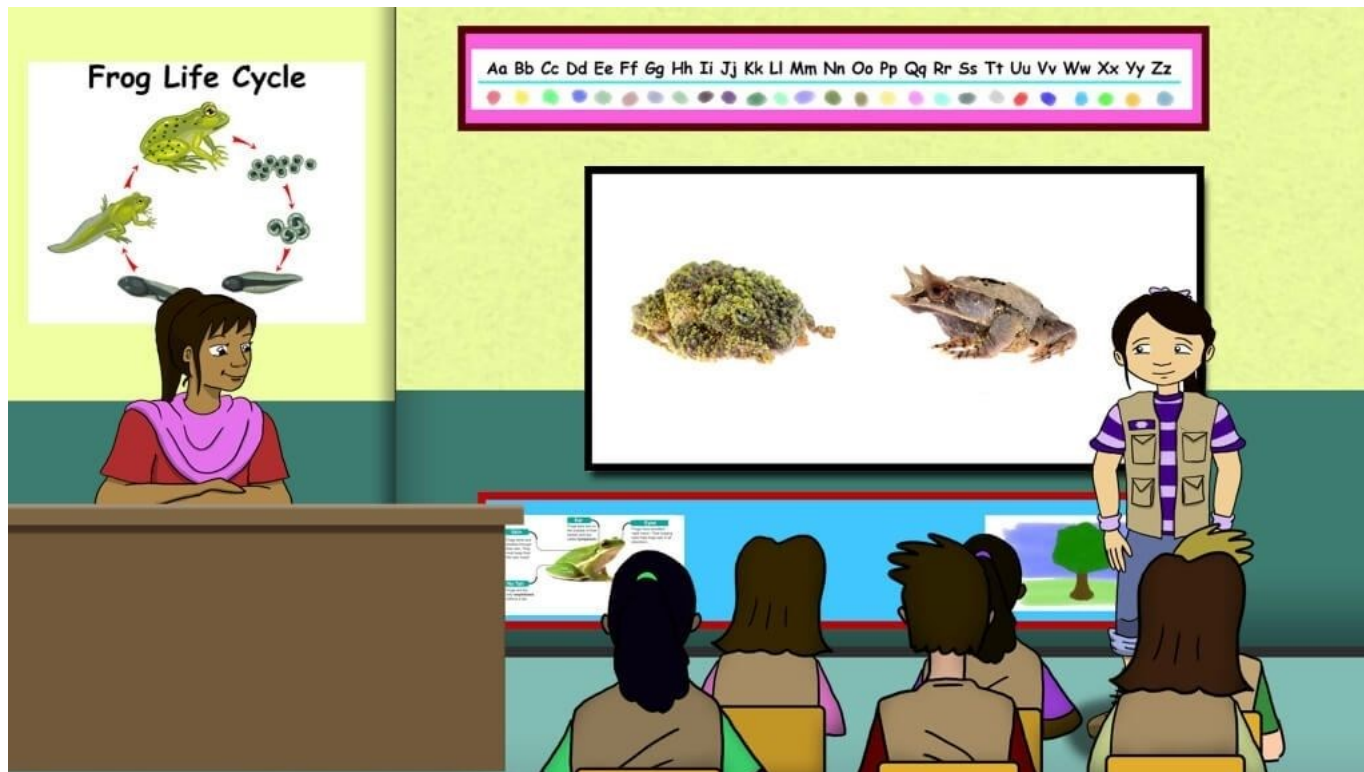

This frog hid behind a rock. It looks like a rock.

Iki gikeri cyihishe inyuma y'urutare. Gisa nk'urutare.

The frog jumps up on the green plant. What happens to the frog? It will look like the plant.

Igikeri gisimbutse hejuru yikimera cy'icyatsi.  
Biragendekera ute igikeri?. Kirasa nk'ikimera.

Kim tells about frogs. Frogs can become the colors of things next to them.

Kim aravuga ku bikeri. Ibikeri bishobora gufata amabara yibintu biri hafi yabyo.

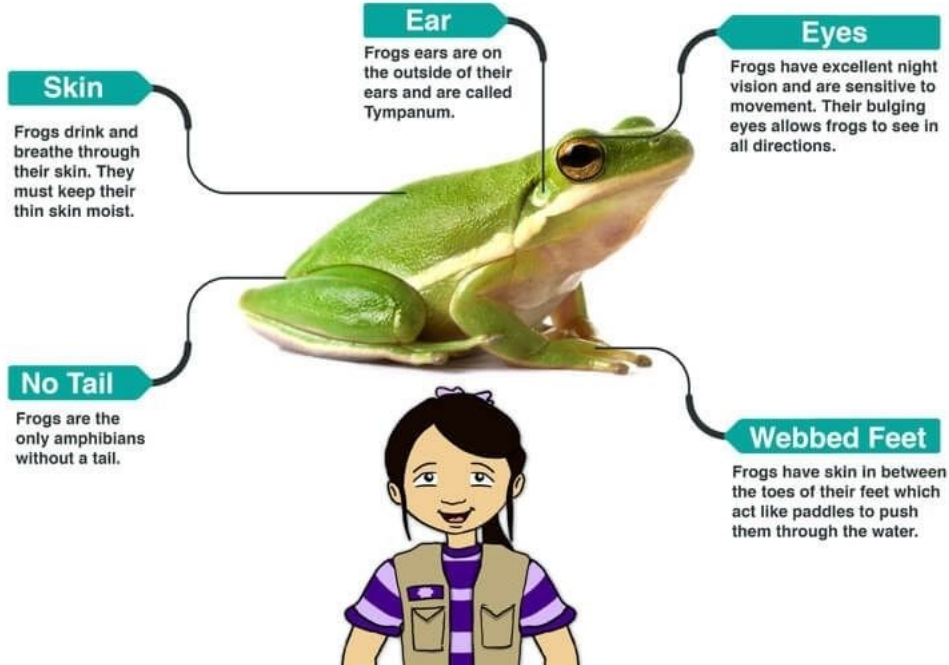

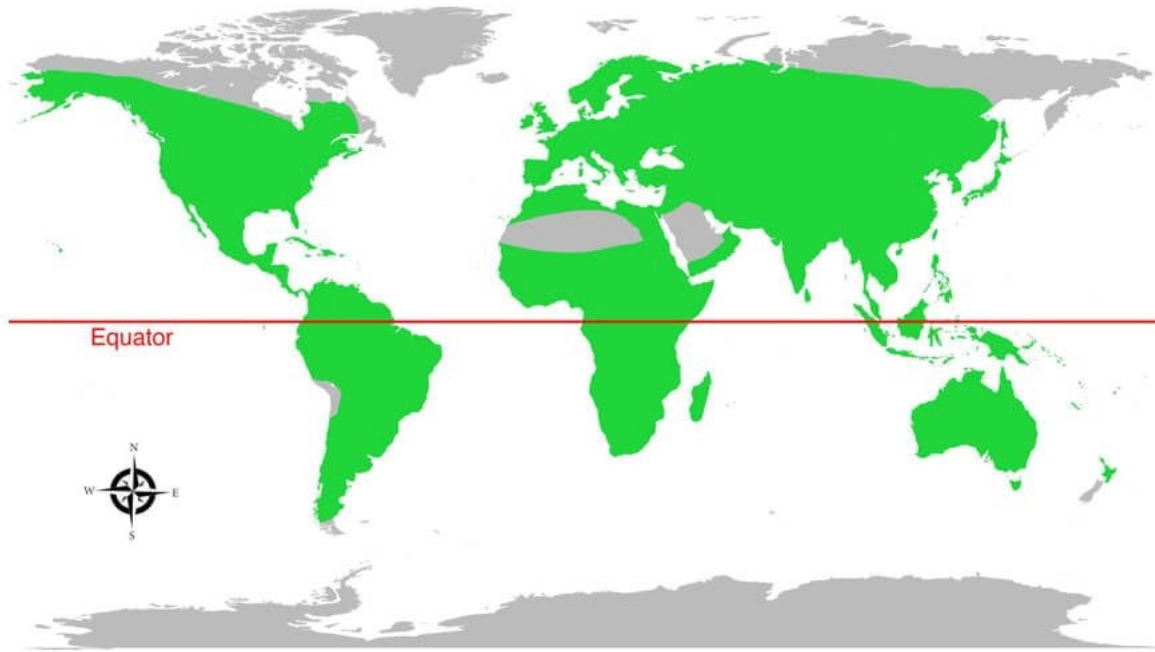

# Frog Facts

- Poisonous frogs have bright colors.
- Mimicry: Some frogs that are not poisonous may have bright colors, too. It is a way of confusing predators.
- Camouflage: Most frogs can change their colors to match their surroundings.
- Having different colors helps frogs hide from predators who would eat them.
